Rails, Inc of Albuquerque Supports for Rail Nationalization

Rails Inc, out of Albuquerque, NM, a non-profit volunteer Rail advocacy group, has for many years promoted both the restoration of our national passenger Rail network to the density and frequency of the 1950's and 60's, AND to achieve this, the conversion of our privately-owned interstate track network to public ownership, after the manner of our highways, airports, waterways, and their support infrastructure and personnel.
